7. HEALTH AND SAFETY

Competitors are reminded that they should take precautions to ensure the Health and Safety of themselves and others, for example: during vehicle preparation providing a board that is adequate to carry the weight of the vehicle and large enough to accommodate the size of the jack to enable the jack and/or axle stands to have a firm base when used on soft, rough or uneven ground. Additional support of vehicles when raised on jacks, i.e. axle stands, should be used. Competitors should ensure that harmful substances are properly contained and wear any necessary PPE when handling these substances. The concours area is a strictly non-smoking area due to the fact that competitors may be using substances that contain flammable materials. Trip hazards should be avoided. For their own safety whilst a car is jacked up and/or on axle stands, any person or persons accompanying concours competitors (i.e. wives, children or friends) should cease assisting with the car preparation and leave the concours area.

Any queries or matters arising regarding Health and Safety should be directed to the Concours Coordinator.
