

YouDrive@Porsche

With YouDrive@Porsche you take your own car, which doesn't have to be a Porsche, to the safe environment of the Porsche Test Tracks for a fun, action packed session. The experience was created in response to a large number of requests from customers who, after experiencing the Porsche Test Tracks, asked if they were available to a wider audience, particularly family members.

“YouDrive@Porsche provides a unique opportunity for people who don't drive a Porsche to enjoy all of the things on offer...”

James Taylor, Porsche Experience Centre Manager.

YouDrive@Porsche highlights include:

Driving dynamics in your car

Understand your own car's handling characteristics on the unique low friction surfaces, pushing your limits and practicing things you could never do on the open road such as catching your car to prevent skidding sideways on sheet ice.

A quick consolidation

A theory session will help you transfer the skills you have just learned to your everyday driving.

Human performance

Whatever car you drive, you are in control and it's what you do that makes the difference. The team at

the Human Performance Centre will test your reaction speed and vision in their state-of-the art laboratory, sharing their knowledge on how to maximize concentration, comfort and co-ordination, the cornerstones of better driving.

Sportscar driving

Drive one of the latest Porsche sports cars around the Porsche Handling Circuit. A Porsche Driving Consultant will sit alongside you to help you get the most out of the car.

Priced at £165, YouDrive@Porsche takes place on Saturdays, starting in autumn 2009.
