* New products

At Porsche, we believe our cars should offer the ultimate expression of personal freedom and individuality. Regardless of whether your Porsche is new or used. That's why we developed the Porsche Tequipment range, with products offering almost unlimited scope for personalising your 911. Where outstanding design and functionality are just as important as the quality of the materials we use.

And where every product bears the same hallmark of quality as the car itself: Porsche.

Our aim is to build a car that's exactly the way you want it, limited only by the bounds of technical feasibility. Which means the possibilities are virtually endless. But although there are many changes we can make to your Porsche, one thing always stays the same: the warranty. Whatever modifications and enhancements you ask us or your Porsche dealer to carry out, your warranty remains unaffected.

All Tequipment accessories have been tested and approved by Porsche. They have also been specially developed for Porsche and designed specifically for the cars to which they are fitted.

Which means your 911 remains a 911. Only more so.

Wheels are an important factor in the overall appearance of your 911. In recognition of that fact, we've created a range of styles and sizes that offer plenty of scope for personalisation.

Porsche wheels are not only designed to match your car, they also make a significant contribution to active safety. Without compromising on comfort.

18" SportClassic complete wheel set: part no. 000 043 204 16 (with Continental tyres*) or part no. 000 044 600 04 (with Pirelli tyres*)

Tequipment wheels take their styling cues from Porsche's rich racing heritage. A traditional Porsche feature is the five-bolt design and large pitch circle, which creates a choice of five- or ten-spoke configurations offering greater rigidity than other wheels, despite the slimmer spoke design and corresponding reduction in weight.

The two-piece construction features a one-piece rim bed to ensure perfect tyre sealing. The use of high-strength titanium bolts to join the central section (spider) to the rim helps reduce the weight of the wheel to the absolute minimum.

18" SportClassic wheel

Two-piece alloy wheel with classic Y-shaped spoke design inspired by Porsche racing cars of the past.

18" SportDesign complete wheel set: part no. 000 444 600 01 (with Continental tyres*) or part no. 000 044 600 08 (with Pirelli tyres*)

18" SportDesign wheel

Two-piece alloy wheel featuring the double-spoke look found on the 911 GT3. The larger gap between the spokes makes for better brake ventilation.

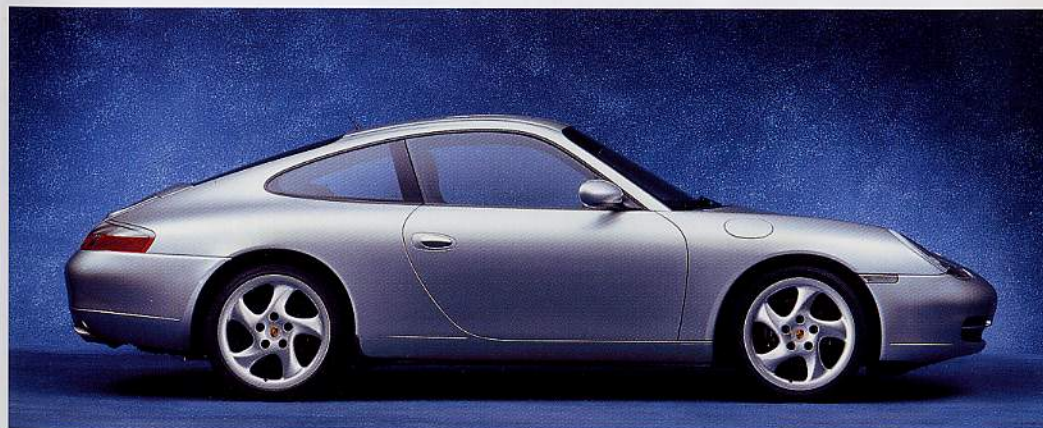

18" Turbo wheel

One-piece alloy wheel with hollow spokes providing a weight reduction over conventional designs of

around 3 kg per wheel as well as outstanding strength.

*See the table on page 7 for wheel and tyre sizes.

18" Turbo complete wheel set: part no. 000 443 204 25 (with Continental tyres*) or part no. 000 044 600 06 (with Pirelli tyres*)

Part no. 000 044 600 00

Crested valve caps

Four rubber valves with chrome-finish sleeves and embossed Porsche crest.

Part no. 000 044 600 12

Wheel centre set

Concave, silver-coloured wheel centres with Porsche crest in traditional colours.

5 mm spacers
Part no. 000 044 500 09

Spacers

Designed to widen the track and enhance the appearance of your Porsche. Centring elements on both sides ensure a perfect fit for wheel and hub. Includes wheel nuts.

Anti-theft protection, Part no. 996 361 057 00

Anti-theft protection for wheels

Set of four alloy wheel nuts with special anti-theft coding system.

Snow chains

Snow chains

Specially designed for use on Porsche cars. Chains feature extremely fine links, a low profile, and are easy to fit.

Snow chains for tyre sizes
225/50 R 16 and 225/45 R 17:

Part no. 996 361 920 00

* Requires modification of rear wheel arches. Only available for the Carrera 2.

Note: Wheel sets do not include centres.

17" tyres: Continental: SportContact N1
Pirelli: P Zero Direzionale N2 (front) and
Asimetrico N2 (rear)
18" tyres: Continental: SportContact N1
Pirelli: P-Zero Asimetrico N3

Recommendation for fitting of genuine Porsche Tequipment spacers
(always in conjunction with modification of the rear wheel arches):

¹ 5 mm on all wheels

² 117 mm on rear axle only

Porsche Tequipment also includes a range of attractive, race-proven exterior options that will enhance both the aerodynamic efficiency and appearance of your 911.

All spoilers and side skirts have been specially developed in the Porsche wind tunnel to give you more of what the 911 was designed for: all the speed and excitement of a high-performance sports car, but with the road holding to match.

Cup Aerokit (front view), part no. 000 044 801 02

Cup Aerokit

The Cup Aerokit has been developed in the Porsche wind tunnel to reduce lift on the front and rear axle, while emphasising the racing

heritage of the 911. Components include a new front section with integrated front spoiler and side skirts and a bi-plane rear spoiler with manually adjustable upper

wing element which replaces the standard electric 911 spoiler. For road use, front and rear spoilers may not be fitted separately.

Cup Aerokit (rear view), part no. 000 044 801 02

GT side rear trim

GT side trim mounted low at the rear is the perfect complement to the Cup Aerokit, blending harmoniously with the natural lines of the car to enhance the potent looks of the 911.

GT side rear trim, part no. 996 505 977 00 (left) and part no. 996 505 978 00 (right)

Side skirts, part no. 000 044 801 54

Side skirts

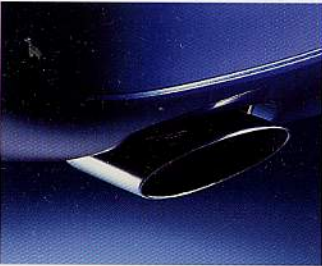

Complete set of side skirts and GT side rear trim to create an even more dynamic look. Particularly effective on the 911 Cabriolet.

The engine and chassis on the standard 911 have always offered outstanding performance, as thousands of race victories will confirm. But no matter how well we build our

cars, we're never going to rest on our laurels. The following pages offer a number of engine and chassis modification options for an even more dynamic driving experience.

You'll also find everything you need to prepare your Porsche for the track, including all the necessary safety equipment.

Sports tail pipe, part no. 996 111 981 00 (left) and part no. 996 111 982 00 (right)

Sports roll-over bar (without cross brace)
Part no. 996 580 980 00 (911 Coupé)

Roll-over bar, sports bucket seat and six-point static belt

Sports tail pipe

Chrome-plated stainless steel exhaust tail pipes featuring a larger, oval cross-section.

Roll-over bar

High-quality steel frame with fitting elements and reinforcing plates. Package also includes a cross brace for attaching a six-point belt. Offers added occupant protection and greater vehicle rigidity.

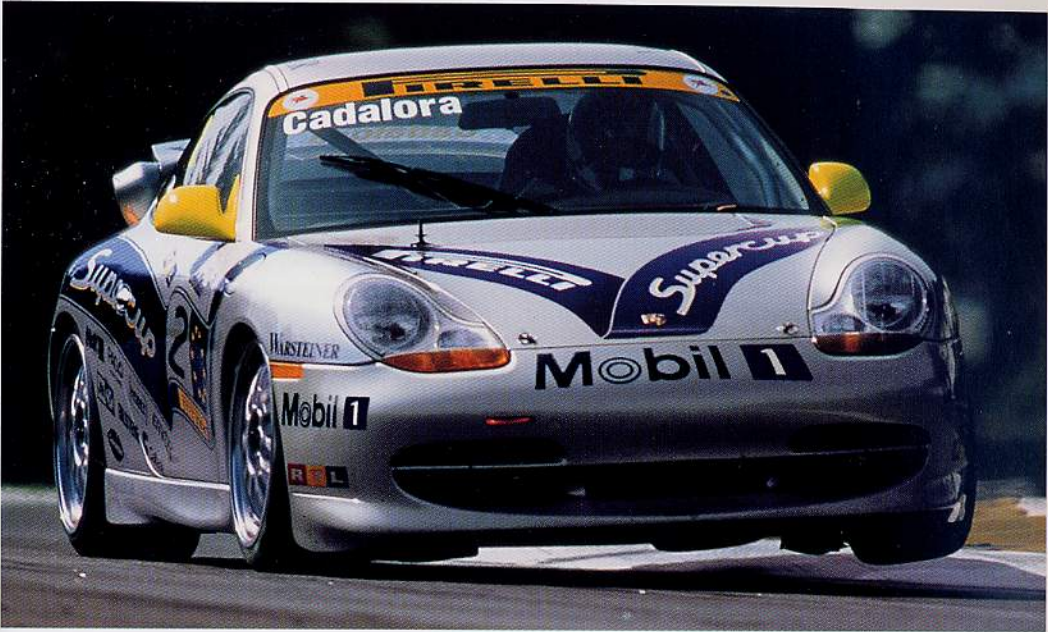

Part no. 996 580 981 000
(911 Coupé)
Part no. 996 580 984 000
(911 Cabriolet)

Sports bucket seat

This professional-quality bucket seat is available in FIA-compliant fabric or leather. See separate price list for details of individual seats.

Six-point static belt

Part no. 996 803 037 91
(left-hand seat)
Part no. 996 803 038 91
(right-hand seat)
Cross brace for attaching belt:
part no. 996 521 933 90

Carrera Powerkit, part no. 000 044 100 09
Additional set of pistons, part no. 000 044 100 10

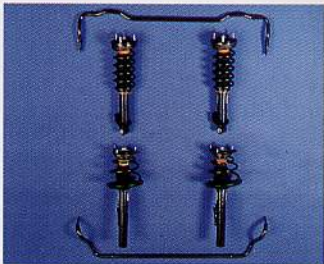

Carrera Powerkit

Boosts power output from 221 kW to 235 kW using modified pistons, cylinders, camshaft and electronic control unit. The package also includes an additional oil pump. The Carrera Powerkit enhances torque and is ideal for the track when used in conjunction with racing tyres.

Sports chassis kit

Lowers the 911 Carrera's centre of gravity by approximately 10 cm. The stiffer suspension enhances the exemplary mid-corner stability of the 911. Package also includes a sump guard to prevent damage on uneven road surfaces. Sports chassis kit for the 911 Carrera Coupé with manual transmission: part no. 000 044 500 07
Sports chassis kit for the 911 Carrera 4 Coupé with manual

Sports chassis kit

transmission:
part no. 000 044 500 08
Sump guard (for all 911 S):
part no. 996 107 981 00

On the 911 Cabriolet, it only takes the push of a button to lower the hood and let the sun come in. Unfortunately, however, sometimes the wind

and the rain aren't far behind. The Cabriolet accessories shown here offer effective protection against the elements and are carefully designed to complement

your 911 Cabriolet. Allowing you to enjoy the pleasures of open-air motoring, whatever the season.

Wind deflector, part no. 000 044 801 45

Wind deflector (Cabriolet)

This folding wind deflector reduces turbulence for both driver and passenger as well as covering any luggage on the rear seat. It's easy to fit and can be stowed in the luggage compartment when not in use.

Car cover

Car cover made of breathable, anti-static fabric mix. Light grey, with Porsche crest and logo.
Part no. 000 044 000 33
(911 Coupé and Cabriolet)
Part no. 000 044 000 34
(911 Coupé with Aerokit and 911 GT3)

Hardtop storage system

The hardtop trolley is made of anodised alloy and can accommodate up to four wheels with tyres. Bins at the side can be used to store items such as snow chains or car care equipment. The hardtop holder can either be fixed to the trolley or wall-mounted. The top crossbar doubles as a fixing point for the load carrier

system holder.

Hardtop holder:

Part no. 000 044 000 39

Hardtop trolley (does not include hardtop holder):

Part no. 000 044 000 38

Holder for load carrier system:

Part no. 000 044 000 40

Hardtop storage system

Hardtop cover

Functional, tailored storage cover made of breathable, anti-static material.

Part no. 000 044 000 45

Auxiliary heating system, part no. 996 572 980 00

Auxiliary heating system (LHD cars only)

This compact auxiliary heating system features a programmable timer and optional remote control. It offers a number of benefits: In winter, it uses the standard heating system to warm the interior of your Porsche, while in summer the system can be used to ventilate the passenger compartment.

Remote control:

part no. 000 044 000 43

Fixing bracket for CD autochanger:
part no. 000 044 000 41

Car cover

There's nothing mass-produced about the interior of a 911, as anyone who has ever experienced the quality of our hand-sewn upholstery will appreciate. Over

the next few pages, you'll find a range of options designed to underline the racing heritage of the 911 or simply to make driving more comfortable for

you and your passengers. Whatever you choose, the result will be unique. With every added feature crafted to match your 911.

Dark burr maple interior

Wood interior

Classic maple veneer is the ideal material for enhancing the elegance of the 911 interior.

The following parts are available with a dark burr maple finish:

- Instrument surround:
Part no. 000 044 801 19 (LHD cars)
Part no. 000 044 801 18 (RHD cars)
 - Switch panel elements:
Part no. 000 044 801 22 (cars without PCM)
Part no. 000 044 801 23 (cars with PCM)
 - Door parts:
Part no. 000 044 801 06
 - Rear section of centre console:
Part no. 000 044 801 77
- See separate price list for details of steering wheels, gear lever, Tiptronic selector and handbrake levers.

Light burr maple interior

The following parts are available in an equally tasteful light burr maple finish:

- Instrument surround:
Part no. 000 044 801 17 (LHD cars)
Part no. 000 044 801 16 (RHD cars)
 - Switch panel elements:
Part no. 000 044 801 20 (cars without PCM)
Part no. 000 044 801 21 (cars with PCM)
 - Door parts:
Part no. 000 044 801 05
 - Rear section of centre console:
Part no. 000 044 801 78
- See separate price list for details of steering wheels, gear lever, Tiptronic selector and handbrake levers.

Carbon interior

Carbon interior

Carbon fibre is a lightweight and robust material used extensively in the world of motorsport. Now you can also enjoy this unique synthesis of racing technology and high-tech design in the interior of your 911.

The following parts are available in genuine carbon fibre:

- Instrument surround:
Part no. 000 044 801 07 (LHD cars)
Part no. 000 044 801 08 (RHD cars)
- Switch panel elements:
Part no. 000 044 801 30 (cars without PCM)
Part no. 000 044 801 31 (cars with PCM)

- Door parts:
Part no. 000 044 801 04
- Rear section of centre console:
Part no. 000 044 800 99

See separate price list for details of steering wheels, gear lever, Tiptronic selector and handbrake levers.

Stainless steel door entry guards, part no. 996 551 984 01

Carbon fibre door entry guards, part no. 996 551 984 00

Stainless steel/carbon fibre door entry guards

Stainless steel or carbon fibre door entry guards provide a stylish and discreet optical enhancement for your Porsche as well as protecting the paintwork.

Floor mats

Tailored velour floor mat sets are also available for your 911. All mats are designed to match the quality and colour of the interior pile and have a non-slip and waterproof rubber backing. The mats are fixed to pads using Velcro strips to prevent slipping.

Part no. 000 044 800 84 + colour code (LHD cars) and part no. 000 044 800 85 + colour code (RHD cars).

Rechargeable torch, part no. 000 044 900 20

Rechargeable torch

Compact design with fold-out magnifying glass. Can be recharged from the cigarette lighter with minimal power draw.

Floor mats

Intelligent communications technology is becoming ever more important on today's roads, allowing you to stay available at all times, and helping you to get where you want to with minimal delay.

Porsche Tequipment has a carefully selected range of communications and audio equipment with a variety of options enabling you to transform your 911 into a fully networked communications centre.

Tweeter/midrange speaker (rear)
Part no. 000 044 900 47

High-performance audio system amplifier

High-performance audio system components

Porsche high-performance audio system

An exclusive, high-quality in-car entertainment system offering a new and brighter quality of sound. The 2 Ohm 2 x 160 Watt output is significantly higher than that of standard systems and combines with enhanced bass reproduction to create a clearer and richer sound

experience tailored to the 911 cockpit. The twin tweeter/midrange speaker systems and elegant double-bass panels in the doors are carefully matched to the interior of the car. In the Coupé, an additional tweeter/midrange speaker system is located in the rear. Installation is

simple, with minimal loss of space. Whether you drive a Coupé or open-topped Cabriolet, prefer classical music or rock, the Porsche high-performance audio system offers the ultimate in-car sound experience.

High-performance audio system:
Part no. 000 044 900 42

Porsche audio systems

All audio systems feature an easy-to-read display and an ingenious menu system offering greater functionality and ease of use. Each device is security coded and has a removable front panel as well as a flashing light-emitting diode (LED) that is activated when the ignition key is removed. All systems come with 4 x 30 Watt high-power output. The speed-dependent volume control adjusts audio output up to 250 km/h, ensuring your audio system always keeps pace with your car. The top of the range CDR 32 and MDR 32 systems use DAS (Dynamic Auto-

Porsche CR 22 radio cassette, part no. 000 044 901 00

Store) to display all available stations using RDS codes, while the dot-matrix display is clearly legible under all light conditions. All devices can be used in conjunction with a Porsche CD autochanger and offer telephone mute functionality.

CD autochanger CDC 3,
part no. 000 044 900 35

Porsche CDC 3 CD autochanger

The Porsche CD autochanger is compatible with all Porsche audio systems. One of the smallest of its kind, it is installed in a niche in the luggage compartment to save space, and can accommodate up to six CDs. Functions are accessed via the audio system controls.

Double-bass panel in door

Porsche audio systems

Porsche TrafficPro, part no. 000 044 900 55
GPS antenna for TrafficPro, part no. 996 647 107 00

TrafficPro navigation system

A navigation system offers major advantages in terms of mobility, safety and driving pleasure. Because even when you're far from home, there's always a system on hand to help get you straight to where you want to go. And stay relaxed in the process. The TrafficPro navigation system offers all the advantages of a conventional system, but it's smaller, more compact, and has everything you need all rolled into one. Navigation system, car radio, and CD player. The system works by copying all navigation data into memory to calculate the best route. Which means that once the route has been determined, the CD player

is free again to play your favourite music. Audio features are identical to those offered by the Porsche CDR 32 CD radio.

The new Porsche TrafficPro offers significantly improved functionality (including the ability to store stopover destinations) and comes with a new, high-quality dot-matrix display. Road network information for ten European countries is provided on a single CD.

Despite the compact format of the system, nothing has been left out. Before you begin your journey, simply enter your destination using the right-hand control knob. Route guidance comes in the form of a

Navigation system features

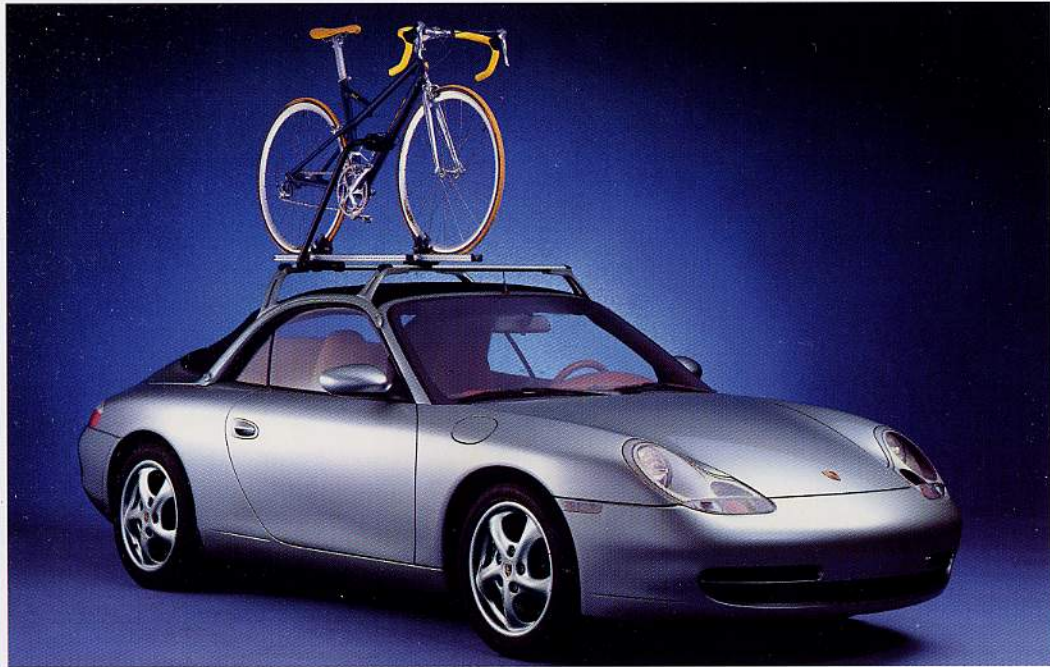

- Destination input: Alphabet and selection list, input/selection via right-hand control knob
- Storage: Stores around 50 destinations as well as 50 most recent destinations
- Traffic button: Prevents a section of road which may be particularly congested from being used
- Stop button: Enter a stopover destination
- Info button: Displays remaining distance, expected time of arrival, destination and current position
- Route calculation modes: Shortest/fastest route, use/avoid motorway, use/avoid toll roads, use/avoid ferries
- Display: Junctions with adjoining minor roads, distance to junction, current road, road required after junction
- Route guidance: Directions given in natural voice (male or female) and choice of language
- Navigation CD: Austria, Belgium, France, Germany, Italy & San Marino, Liechtenstein, Luxembourg, Netherlands, Switzerland

visual display on the unit itself and as voice output using the car's own speakers (with a choice of English, French, German and Italian). Regular CD updates ensure that road maps remain accurate, while installation is almost as easy as with a conventional car audio system.

Above all, the 911 is an out-and-out sports car. But it also offers a remarkable degree of practicality. Total storage capacity, for instance, is an ample 300 litres.

Even so, sometimes getting the most out of your car calls for getting even more in. Which is why we've developed a range of tough and adaptable load carrier systems.

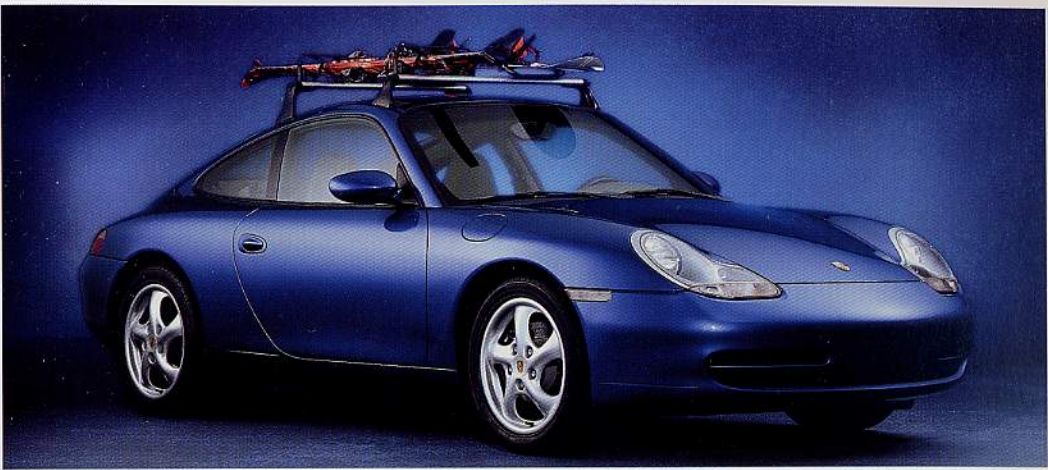

Load carrier system for the 911 Cabriolet, part no. 996 801 055 00. Bicycle carrier, part no. 000 044 000 48 with twin lock set, part no. 000 044 000 49

Specially designed for use on a Porsche, these systems can cope with just about any load. Because at Porsche, the principle of true sports car driving is freedom.

Load carrier system for Coupé/Cabriolet

This system is based on a series of individual load carriers specially designed for each individual model. All carriers can take up to 75 kg on one of a range of attachments designed for specific loads. Rugged security caps and locks on all carriers ensure optimum anti-theft protection.

Load carrier system for the 911 Coupé, part no. 996 801 105 00. Ski holder, part no. 996 801 091 00

Ski holder

Ski holder with broad rubber clamps. Takes three pairs of skis.

Surf/sail boat carrier, part no. 996 801 019 00

Bicycle carrier

Carries bicycles (including Porsche Bikes from the Porsche Selection catalogue) in an upright position. Features rapid-action, lockable frame clamp for frame sizes up to 65 mm as well as additional securing cable. A twin lock set is available separately.

Surf/Sail boat carrier

Features integrated fixtures for mast, boom and sails, as well as tension straps for securing surfboards or canoes.

Roof box

Lockable plastic box for the 911 load carrier system. Offers a capacity of around 300 litres.

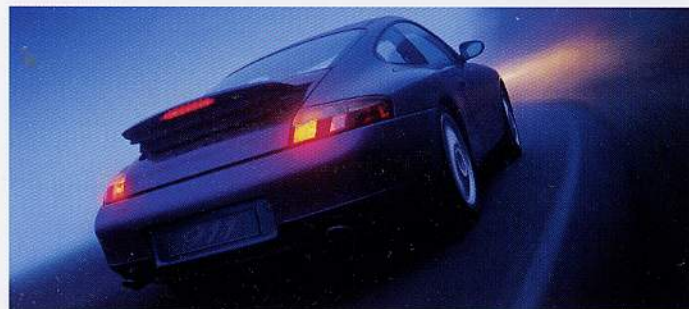

Roof box, part no. 000 044 000 35

The 911 is more than just the epitome of a high-performance sports car. It also sets new benchmarks when it comes to safety, and contains parts originally developed for the

racetrack. You can now further enhance this high standard of safety by fitting optional safety products from Porsche Tequipment. Tequipment even has accessories designed with the

youngest Porsche passengers in mind – equipment which is easy to fit and offers the same outstanding levels of safety as the 911 itself.

Litronic kit, part no. 000 044 900 39 (ECE LHD cars) and part no. 000 044 900 40 (ECE RHD cars)

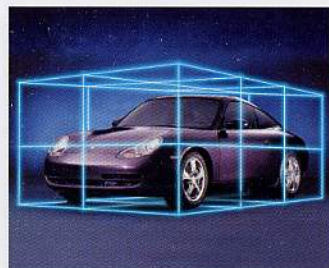

I 536 alarm

The ultimate in anti-theft protection. System includes an acoustic alarm with independent power supply and inclination sensor.

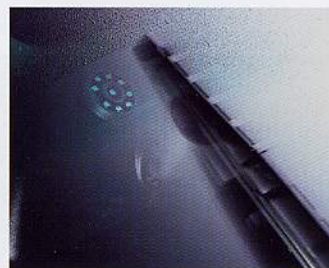

Rain sensor

A rain sensor located on the windscreen monitors the intensity of the rain and varies the wipe interval accordingly ensuring optimum forward visibility at all times.

Alarm system, part no. 000 044 900 26

Rain sensor, part no. 996 612 981 00

Litronic kit

Xenon lighting kit offering optimum illumination of the road. Kit includes headlamps (complying with local vehicle regulations), control unit and wiring.

Automatically-dimming interior and exterior mirrors (exterior for LHD cars only)

An optoelectronic sensor in the interior mirror selects the ideal degree of tinting to prevent dazzling from behind.

Interior mirror, part no. 000 044 801 46
See separate price list for exterior mirror (only available with interior mirror)

Porsche Zoom, part no. 000 802 017 00 with sleep support, part no. 000 802 019 00

Porsche child seats

Porsche child seats ensure that passengers up to the age of 12 can also travel in safety, comfort and with minimum restriction of movement. These compact seats have been specially designed for use on the rear and front passenger seats of your 911. Seats can be secured quickly and easily using the standard seat belts.

Airbag deactivation unit, part no. 996 803 083 01

Airbag deactivation unit

The airbag deactivation unit is enabled when the child seat is fitted to the passenger seat and prevents the airbag from being deployed in an accident. The unit must be installed by your Porsche dealer.

Note: Where possible, the child seat should be fitted to the rear seat. If fitted to the front passenger seat, the passenger airbag must be deactivated.

Vehicle model	Group 0 <10 kg, 0–9 months	Group I 9–18 kg, 9 months–4 years	Group II 15–25 kg, 3,5–7 years	Group III 22–36 kg, 7–12 years
911 front	Porsche Baby Safe with airbag deactivation device	Porsche Prince with airbag deactivation device	Porsche Zoom + Porsche sleep support with airbag deactivation device	Porsche Zoom + Porsche sleep support with airbag deactivation device

Battery charging device that connects easily via the cigarette lighter to recharge the battery

without risk of damage. Recommended if vehicle has been left standing for long periods.

Porsche Charge-o-mat, part no. 000 043 202 43 or part no. 000 044 900 25 (GB)

At Porsche, we like to look after our drivers as well:

Porsche Selection

An exclusive collection of lifestyle accessories and garments designed to match your Porsche. All Selection products are timeless, high quality and totally individual. No matter what you choose, each product offers the same attention to detail you'd expect from Porsche.

Porsche Clubs

There are approximately 360 Porsche Clubs around the world with more than 120,000 members. Porsche Clubs organise rallies and meetings to which you are always cordially invited.

Porsche Travel Club

The Porsche Travel Club offers exciting and unusual tours and holiday breaks. Each one is exclusive, innovative and individual. And perfectly organised, leaving you to relax and enjoy yourself. Treat yourself to a totally new experience.

Porsche Classic

Porsche Classic is a service covering the Porsche 356, 914, 912, and all 911s built before 1974. Genuine parts can be obtained from your Porsche dealer, while our Porsche Classic experts are always on hand with useful advice on looking after your classic Porsche.

Sports Driving School

The Porsche sports driving school has been offering safety training for 25 years, giving every Porsche driver the opportunity to learn more about their car's characteristics and how best to cope with tricky situations. The techniques and tips apply equally to the racetrack and to everyday road use.

Porsche dealers/importers

In addition to new and used cars, your Porsche dealer provides everything you'll need for your Porsche, including servicing, advice, genuine parts, accessories and lots more besides. All parts and accessories come direct from Porsche, and feature the same high standards of quality we put into all our products.

Porsche online

The Porsche website offers a host of Porsche-related news and information. Other options include building a Porsche to your own specification, searching for a specific used model, or sending us an e-mail.
