Equipment • Accessories for the 911 (Type 996) Model Range

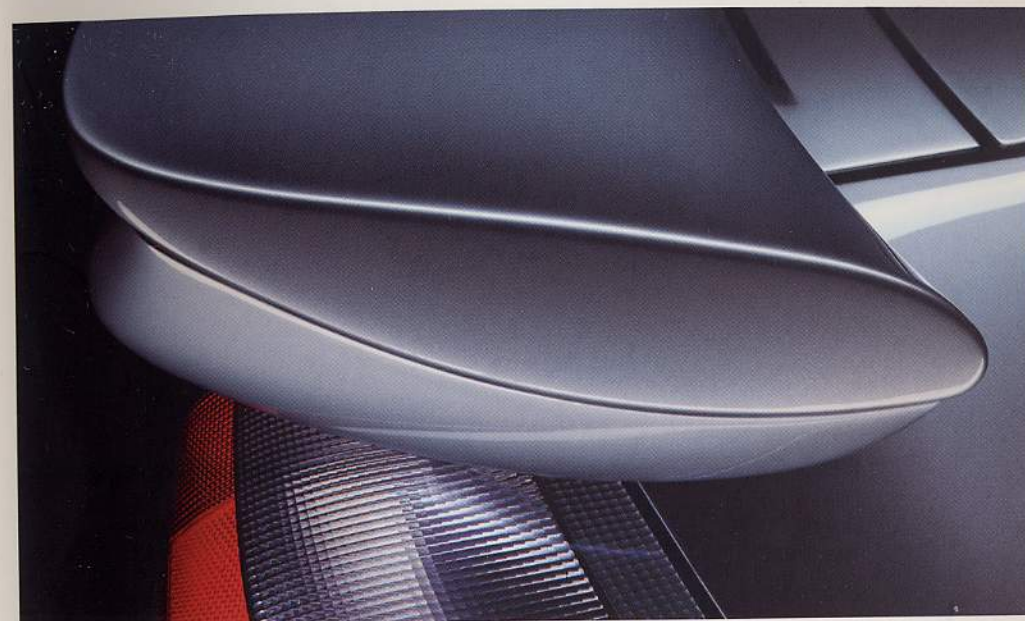

Please fit only genuine Porsche parts, available from your Porsche dealer. Porsche accepts liability for genuine Porsche parts, but cannot accept liability for damages resulting from the use of third-party spares or accessories. Please note that fitting parts that have not been approved by Porsche may affect your car's warranty. Porsche reserves the right to alter product specifications without prior notice. Some of the models

shown in this catalogue feature equipment that is not included in the standard specification and is available as an extra-cost option only. Availability of products may vary from country to country due to local restrictions and regulations. Errors and omissions excepted.

Tequipment

At Porsche, we believe that every car we make should offer the ultimate expression of freedom and individuality. To achieve that aim, we created Porsche Tequipment, a unique programme of aftermarket accessories offering unprecedented scope for personalisation. Every product combines elegant design with exceptional functionality and all the quality you'd expect from Porsche.

With our latest collection of accessories, you'll find all the options you need to create the perfect Porsche. With such a comprehensive range of products to choose from, the possibilities are virtually unlimited. But while there are many changes we can make to your Porsche, one thing will always stay the same: whatever modifications and enhancements you ask us to carry out, your warranty remains unchanged.

As you'd expect, all Tequipment accessories are exclusively designed and tested by Porsche. They are also uniquely tailored for the respective model variant and come with full technical approval.

All of which means, whatever changes you make, your Porsche remains a Porsche.

Exterior

Irresistible design.

The Porsche 911 is widely acknowledged as one of the most elegant and accomplished vehicles on the road. At Porsche Tequipment, we've developed a comprehensive range of aerodynamic accessories to complement those famous lines.

More importantly, of course, each aero package helps to maximise downforce while minimising wind resistance. The result is a more balanced and stable ride, with even greater mid-corner grip.

► Aerokit Turbo

The Aerokit Turbo offers a more balanced and rewarding driving experience, particularly during high-speed racetrack use. For reasons of safety, the distinctive rear section with its fixed wing spoiler can only be fitted in conjunction with the front lip spoiler. As well as improving the aerodynamics of the car, the Aerokit Turbo helps minimise weight thanks to its ultra-light engine cover. The prominent rear spoiler with its integrated high-level brake light offers the perfect complement to the power of the 911 Turbo.

Part no. 000 044 801 99

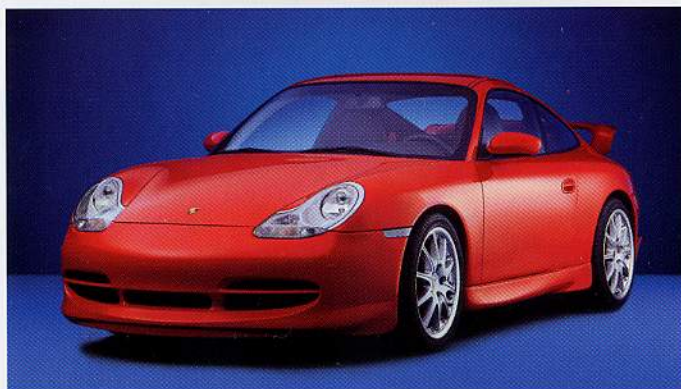

▲ Aerokit Cup (911 Carrera Coupé up to 07/01)

The Aerokit Cup features a range of aerodynamic enhancements specially developed in the Porsche wind tunnel. As well as maximising front and rear downforce, this stylish package offers a clear visual reference to the rich racing heritage of the Porsche 911. Modifications include a new front section with integrated spoiler, matching side skirts, and a bi-plane rear spoiler in place of the standard electrically operated item. Front and rear spoilers may not be fitted separately.

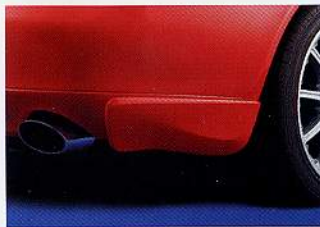

Aerokit Cup (911 Carrera up to 07/01):
Part no. 000 044 801 02

► GT side trims

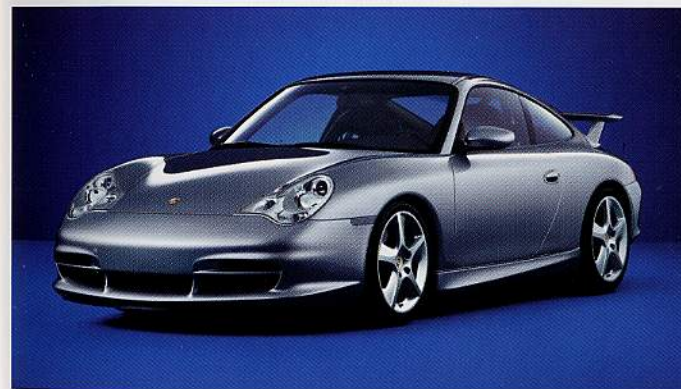

The perfect complement to the Aerokit Cup, these stylish trim elements enhance the powerful rear styling of the 911 Carrera.

GT side trims (911 Carrera up to 07/01):
Left: part no. 996 505 977 00
Right: part no. 996 505 978 00

▲ Aerokit Cup II (911 Carrera Coupé from 08/01)

Specially developed for competition use, the Aerokit Cup II is uniquely designed to match the more powerful performance of the latest

911 Carrera Coupé (from 08/01). The kit comprises a new front section, matching side skirts, and a distinctive fixed-wing spoiler. With optimum downforce at front and rear, the benefits include even

greater stability and grip. Front and rear spoilers may not be fitted separately.

Available from 12/02:
Part no. 000 044 802 02

▼ Aerokit Carrera

(911 Carrera up to 07/01)

Improve the stability and road holding of your 911 Coupé or Cabriolet with this stylish aero package. A new front section is augmented by a fixed rear spoiler with integrated third brake light to generate optimum downforce at front and rear.

Aerokit Carrera with side skirts
(rear spoiler, front spoiler, side skirts
and GT side trims)
911 Carrera up to 07/01:
Part no. 000 044 801 89

Aerokit Carrera without side skirts
(front and rear spoilers only)
911 Carrera up to 07/01:
Part no. 000 044 801 90

Carrera side skirts
(side skirts and GT side trims)
911 Carrera up to 07/01:
Part no. 000 044 801 54

▲ Carrera rear spoiler

All aerodynamic accessories are wind-tunnel developed for the cars to which they are fitted. The Carrera rear spoiler, for example, was specifically designed for the 911 Carrera

model range. This stylish fixed wing replaces the standard electrically operated spoiler to enhance the presence and performance of both Coupé and Cabriolet. Package also includes a front lip spoiler for vehicles from 08/01 onwards.

Rear spoiler for 911 Carrera up to 07/01:
Part no. 996 512 903 00 G2X
Rear spoiler and front lip spoiler for
911 Carrera from 08/01:
Part no. 000 044 802 04

◀ Carrera II side skirts

These stylish side skirts are available for all 911 Carrera models from 08/01 onwards.

Part no. 000 044 802 15

Wheels

Evolution meets revolution.

Choosing a set of wheels is one of the most important considerations when it comes to personalising your Porsche. Not only do they provide the link between vehicle and road, they're crucial to the appearance of your car. The new SportTechno wheel, for example, combines hollow-spoke technology (for low unsprung weight) with a sleek and eye-catching design.

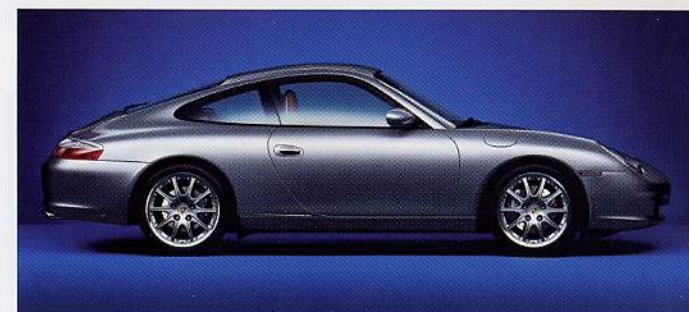

The Turbo II represents a new evolution in Porsche alloy wheels, while the classic Turbo Look I uses a high-gloss polished finish to enhance the elegance of your Porsche.

All wheel options can be combined with genuine Porsche spacers for a wider and more purposeful track.

▲ 18-inch SportTechno wheel

One-piece alloy wheel featuring powerful yet lightweight hollow-spoke design. The smooth open surfaces enhance the elegance of your Porsche and are extremely easy to clean.

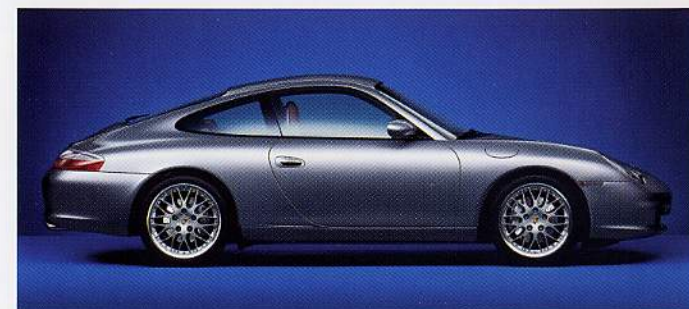

▲ 18-inch SportDesign wheel

Two-piece alloy wheel featuring twin-spoke design developed for the 911 GT3.

► 18-inch SportClassic II wheel

Two-piece alloy wheel featuring classic, race-inspired cross-spoke design.

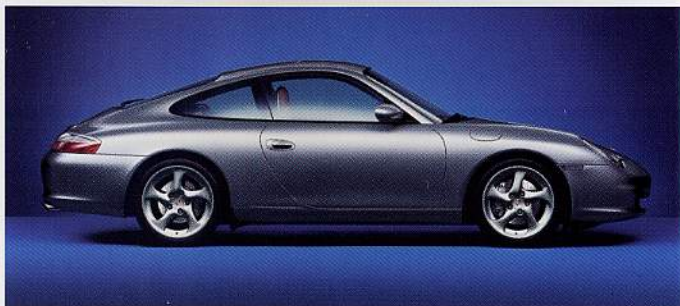

See table on page 14 for wheel and tyre dimensions.

**▲ 18-inch Turbo Look I wheel
(polished)**

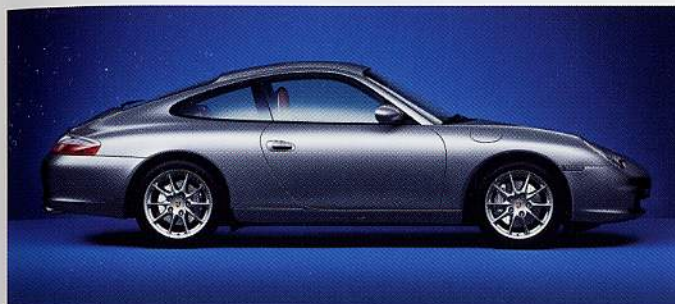

One-piece alloy wheel featuring classic design and elegant high-gloss finish.

▲ 18-inch Turbo Look II wheel

Specially developed to match the power and presence of the 911 Turbo, this stylish and distinctive five-spoke design is extremely easy to clean.

See table on page 14 for wheel and tyre dimensions.

◀ 17-inch Carrera II wheel

One-piece, 10-spoke wheel offering a weight reduction of 9% compared with previous generation wheel.

▲ 18-inch Carrera wheel

Elegant five-spoke alloy wheel offering similar weight advantage to hollow-spoke wheels despite having monobloc construction.

Wheel	Wheel size (wheel offset in mm)	Tyre size	Tyre manu- facturer	Part no. (set of four wheels)

▲ Wheel centre set

Concave wheel centres with Porsche Crest.

Set of four for standard-finish wheels:
Part no. 000 044 600 12
For 18-inch Turbo Look I wheel (polished):
Part no. 996 361 303 09 (single item)

▲ Crested valve caps

Set of four rubber valves with chrome-finish sleeves and embossed Porsche Crest.

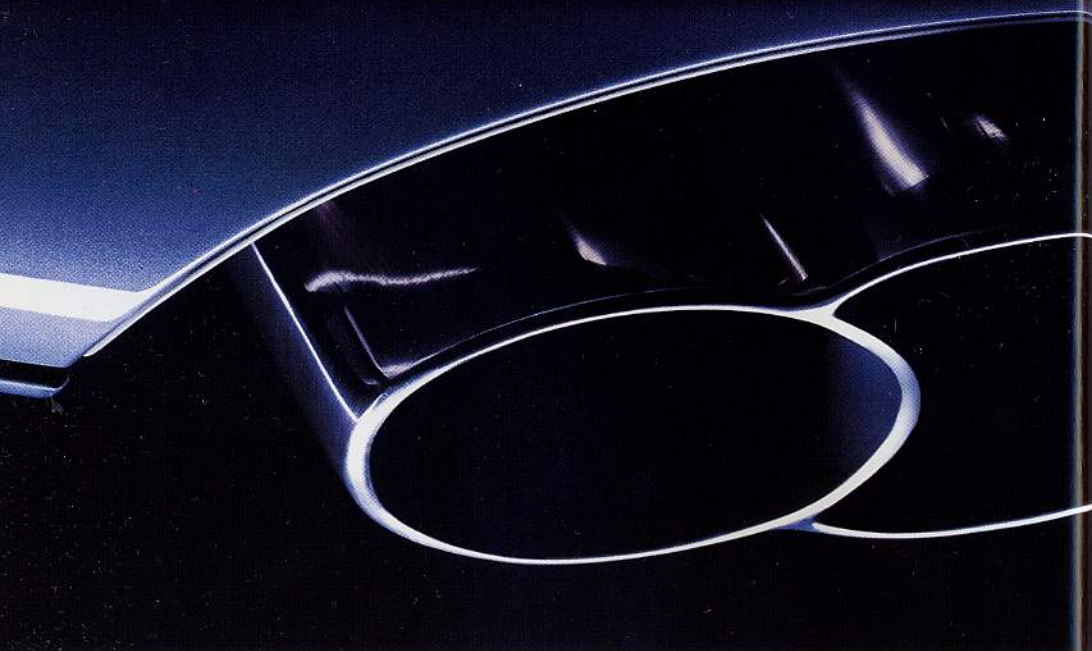

Part no. 000 044 600 00

▲ Anti-theft wheel bolts

Set of four steel bolts for alloy wheels featuring anti-theft protection system.

Part no. 996 361 057 01

Sport

Unleash the potential.

The engine and chassis on the standard 911 make this one of the most capable vehicles on the road. Yet no matter how well we build our cars, we always strive to improve.

At Porsche Tequipment, we've developed a comprehensive range of performance options to help you explore the potential of your car. Each is designed to maximise your enjoyment – without compromising on safety.

▼ Four-tube sports tailpipes (Carrera 4S/Turbo/GT2)

Chrome-plated sports tailpipes with elegant four-tube styling. Suitable for 911 Carrera 4S, 911 Turbo and 911 GT2.

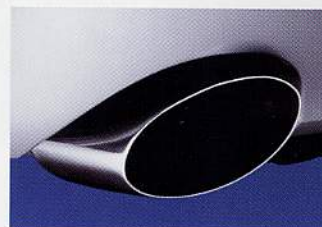

911 C4S (left): part no. 996 111 981 03
911 C4S (right): part no. 996 111 982 03
911 Turbo/GT2 (left): part no. 996 111 981 01
911 Turbo/GT2 (right): part no. 996 111 982 01

▼ Oval-tube sports tailpipes

Chrome-plated tailpipes featuring a larger, elliptical cross-section. Suitable for all 911 Carrera models up to 07/01.

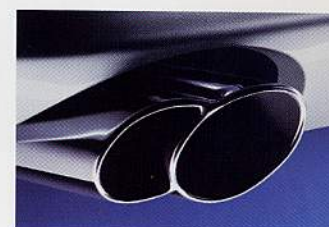

Left: part no. 996 111 981 00
Right: part no. 996 111 982 00

▼ Four-tube sports tailpipes (Carrera)

Chrome-plated sports tailpipes with elegant four-tube styling. Suitable for all 911 Carrera models from 08/02.

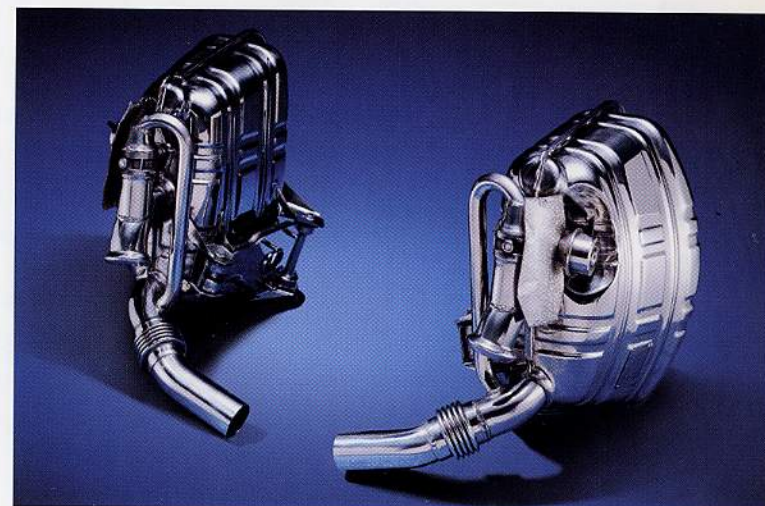

Left: part no. 996 111 981 02
Right: part no. 996 111 982 02

► Sports exhaust system

Specially developed for the 911 Carrera, this innovative exhaust offers a richer and more powerful sound for your Porsche. Features include a unique soundproofing switch, enabling you to reduce noise output to standard levels if required. Not suitable for 911 Turbo or GT2.

Part no. 000 044 200 19

▲ Carrera Powerkit

The Carrera Powerkit offers an increase in power output from 221 kW to 235 kW on all 911 Carrera models up to 12/00. A similar package is available for post-08/01 models, boosting power from 235 kW to 254 kW. Modifications include a new alloy induction manifold, cylinder heads, exhaust manifolds and camshafts, as well as revised engine management software. With more power on board, there's even greater active safety and even more enjoyment from your Porsche.

911 Carrera models from 08/01 (manual gearbox only):
Part no. 000 044 100 12
911 Carrera models up to 12/00 (manual gearbox only; not approved for USA, Canada, Taiwan or Japan):
Part no. 000 044 100 09

911 Carrera up to 12/00 from 08/01

Fuel consumption:

Urban	19.2 l/100 km	16.5 l/100 km
Extra urban	8.8 l/100 km	8.3 l/100 km
Combined	12.6 l/100 km	11.3 l/100 km

CO₂ emissions: 302 g/km 271 g/km

911 Carrera 4 up to 12/00 from 08/01

Fuel consumption:

Urban	19.5 l/100 km	16.9 l/100 km
Extra urban	9.3 l/100 km	8.5 l/100 km
Combined	13.0 l/100 km	11.6 l/100 km

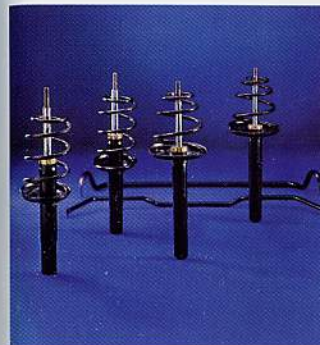

CO₂ emissions: 312 g/km 278 g/km

911 Carrera 4S from 08/01

Fuel consumption:

Urban	17.4 l/100 km
Extra urban	8.7 l/100 km
Combined	11.8 l/100 km

CO₂ emissions: 283 g/km

▲ Sports suspension kit

Uses stiffer springs and dampers to improve mid-corner stability on the 911 Carrera. An optional sump guard for vehicles up to 07/99 offers added protection against grounding.

A similar kit for the 911 Carrera 4S and 911 Turbo is planned for 01/03.

See price list for part numbers.

▲ Bucket seat

Genuine Porsche competition seat, available in FIA-compliant fabric or leather.

See price list for part numbers.

▲ Six-point harness

Offers maximum occupant protection in conjunction with optional roll-over bar and bucket seat.

Left-hand seat:
Part no. 996 803 037 91
Right-hand seat:
Part no. 996 803 038 91
Cross brace for belt attachment:
Part no. 996 521 933 90

▲ Panamericana sports roll-over bar (Coupé only)

Precision-engineered for easy installation and optimum protection in the event of a roll.

Part no. 996 580 980 00

▲ Roll-over bar

High-quality stainless steel roll-over system with installation kit. Package includes cross brace for attaching a six-point harness. Offers added occupant protection and greater vehicle rigidity.

911 Coupé: part no. 996 580 981 00
911 Cabriolet: part no. 996 580 984 00

▲ Performance brake pads

Special formulation offers greater stability over a wide range of temperatures than standard pad compounds. Other benefits include exceptional wear resistance under heavy track use.

Front: part no. 996 351 980 00
Rear: part no. 996 352 980 00

► Carbon interior

Carbon fibre is an extremely tough yet lightweight material used extensively in motor racing. Now you can apply this distinctive blend of race technology and high-tech design to the interior of your 911. The following interior features can all be finished in genuine carbon-fibre trim:

Instrument surround:
LHD vehicles:
Part no. 000 044 801 07
RHD vehicles:
Part no. 996 551 971 07

Dashboard trim:
Vehicles without PCM up to 07/01:
Part no. 000 044 801 30
Vehicles with PCM up to 07/01:
Part no. 000 044 801 31
All vehicles from 08/01:
See price list for part numbers.

Door trim: part no. 000 044 801 04

Rear section of centre console:
Part no. 000 044 800 99

Steering wheel, gear lever, Tiptronic gear selector and handbrake lever:
See price list for part numbers.

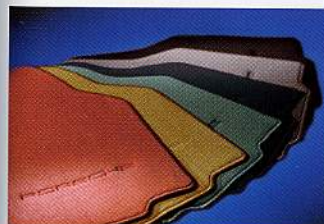

Interior

The ultimate driving environment.

There's nothing mass-produced about the Porsche 911 – as anyone who has ever driven one will know. With the Tequipment range of interior accessories, you can now mirror the high-tech engineering of your

car with a range of genuine carbon-fibre and Aluminium Look trim. For a more discreet visual reference to the heritage of the 911, there's the classic ambience of genuine burr maple.

◀ Floor mats

Set of velour floor mats tailored to your Porsche in a choice of matching colours. Each mat features a non-slip, waterproof rubber backing and is secured using Velcro fasteners.

LHD vehicles:
Part no. 000 044 800 84 + colour code
RHD vehicles:
Part no. 000 044 800 85 + colour code

911 Carrera Cabriolet and Targa models from 08/01 with BOSE® Sound System:

See price list for part numbers.

◀ Stainless steel/carbon door entry guards

These elegant accessories offer added protection for the door-sill area on your Porsche. Available in a choice of stainless steel or carbon fibre with Carrera, Targa, Turbo, GT2, GT3 or Carrera 4S logo.

See price list for part numbers.

Audio and communications

The perfect accompaniment.

Our exclusive collection of in-car systems is uniquely tailored to your Porsche. Intelligent navigation combines with advanced mobile communications to keep you on time and in touch – wherever you go. Increasingly indispensable in today's road traffic, this powerful technology is augmented by a range of quality audio systems offering a more relaxing and enjoyable drive.

On vehicles produced before 07/02, all system components are linked using conventional analogue technology. On those produced from 08/02 onwards, some audio and communications systems may be linked using MOST® bus technology. This innovative digital network uses the latest fibre-optics to achieve high-speed data transfer with no loss of quality en route.

► PCM

The latest generation of Porsche Communication Management features a built-in CD drive for audio and navigation CDs, a high-resolution 5.8-inch colour display with 16:9 screen ratio, and an all-new navigation module. The satellite-based GPS navigation system uses an integrated antenna to establish your current position before calculating the route to your destination. Navigating the system menus is equally straightforward with the aid of a single multi-function rotary control. The integrated audio system features RDS two-tuner frequency diversity as well as 20 FM and 20 MW presets. The system comes with a set of three navigation CDs for the whole of Europe or two for the United States.

For vehicles from 08/02 with MOST® bus technology (available from 11/02):
Part no. 000 044 900 69
Part no. 000 044 900 70 (USA)

▲ CD autochanger

Fully compatible with all Porsche audio systems and PCM, this ultra-compact six-disc CD autochanger installs neatly inside the luggage compartment and is operated using the standard CD controls.

For vehicles without MOST® bus technology:
Part no. 000 044 900 35
For vehicles from 08/02 with MOST® bus technology (available from 11/02):
Part no. 000 044 900 72

▲ PCM telephone module

With its maximum output power of 8 Watts, this dual-band telephone module offers exceptional call quality in the 900 and 1,800-MHz frequency bands. Calls are made using the 12-digit keypad on the PCM terminal.

For vehicles from 08/02 with PCM (available from 11/02):
Part no. 000 044 900 71

Porsche audio systems

All Porsche audio systems are security coded, with some featuring a removable front panel and flashing LED. The LED is automatically enabled whenever the ignition key is removed. Each system is equipped with 4 x 18-Watt amps. The speed-dependent volume control is active

up to 250 km/h (155 mph), ensuring consistent audio output at all times. The CDR-32 and MDR-32 systems use DAS (Dynamic AutoStore) to display all available stations along with their RDS codes. The dot-matrix display offers a choice of positive or negative output for optimum legibility under all light conditions.

▲ TrafficPro navigation system

This compact system offers a comprehensive range of features, including full road network data for 13 European countries on a single CD-ROM. The high-resolution dot-matrix display offers optimum legibility under all light conditions. Route guidance information is delivered via the dot-matrix display as well as in the form of spoken instructions via the standard audio speakers (in English, German, French, Italian,

Dutch, Swedish or Spanish). In some countries, the system's dynamic route guidance capability enables you to anticipate and avoid any congestion on your route. With its compact dimensions, the system is almost as easy to install as a conventional car audio system.

For vehicles without MOST® bus technology:
Part no. 000 044 900 77

◀ Porsche high-performance audio system

This powerful in-car entertainment system offers an exceptional audio experience. The 2 x 160 Watt (2 Ohm) output combines with enhanced bass reproduction to create a rich panorama of sound that is uniquely tailored to the cockpit of your Porsche. The matching tweeter/mid-range modules and twin-bass panels in the doors are elegantly integrated into the interior of the car.

For vehicles without MOST® bus technology:
Part no. 000 044 900 42

▲ Tweeter/mid-range system (rear)

This elegant tweeter/mid-range system installs neatly into the rear side panels. Designed to augment the Porsche high-performance audio system, this is a valuable audio enhancement for both Coupé and Cabriolet.

For vehicles without MOST® bus technology:
Part no. 000 044 900 47

DAS (Dynamic AutoStore) station presets. Stores chains of up to six main and nine regional stations.	27	27	-	-	27	-
AS (AutoStore capability). A further 10 station presets per waveband.	SW MW LW	SW MW LW	MW	MW	MW	MW
RDS-Diversity. Uses two FM tuners and two RDS decoders to enable seamless switching between alternative frequencies for any selected station. The background tuner constantly searches for the best available signal at any given location. The second FM tuner can then switch to this frequency without any interruption in output. RDS Diversity also enables you to receive the latest traffic news from any available station.	x	x	-	-	x	x
RDS PTY (Programme Type). Some radio stations include a code in their broadcasts identifying the programme type (e.g., news, sport, classical or pop). With PTY, a radio can be configured to automatically search for preferred programme types.	x	x	x	x	x	x
RDS Radio text.	x	x	-	-	x	x
Positive/negative display. Optimum legibility in all light conditions.	x	x	-	-	-	x
Dynamic route guidance. Automatic processing of traffic news bulletins (TMC) enables you to drive around congestion as it happens.	-	-	-	-	x	x

Safety

For added peace of mind.

▲ Litronic kit (911 Carrera up to 07/01)

Headlamp kit featuring xenon technology for optimum illumination of the road. Includes headlamps (subject to local regulations), control unit and wiring loom.

See price list for part numbers.

► Rain sensor

This compact sensor is discreetly integrated into the windscreen glass, where it monitors the intensity of the rain and varies the wiper interval accordingly.

Part no. 996 612 981 00

▲ Automatically dimming interior and exterior mirrors (exterior for LHD cars only)

The interior mirror features an optoelectronic sensor used to monitor the light from vehicles behind. All three mirrors can then be automatically dimmed to prevent dazzling.

Interior mirror: part no. 000 044 801 46

Exterior mirrors for vehicles with driver memory:
Part no. 000 044 801 52
without driver memory:
Part no. 000 044 801 03

Child seats

Our comprehensive range of ergonomically designed child seats offers security, comfort and maximum freedom of movement for all children up to 12 years of age. Exclusively designed for use in your Porsche, each seat can be fitted quickly and easily at front or rear using the standard three-point belts.

▲ Airbag deactivation unit

Automatically disables the passenger's front and side airbags when the plug-in connector on your Porsche child seat is inserted. Must be installed by your Porsche dealer.

Part no. 996 803 083 02

▲ Porsche Baby Safe

Touring

Explore the possibilities.

First and foremost, the Porsche 911 is a genuine, thoroughbred sports car. Yet despite its legendary capability on the road, it is also one of the most practical cars in its class.

With our elegant and flexible roof transport system, for example, you can instantly expand your load-carrying options, and reveal yet another hidden talent of your Porsche.

◀ Roof transport system

Choice of three base systems for Coupé, Cabriolet and Targa. Each can be combined with a range of matching attachments for various types of load up to a maximum payload of 75 kg. All three systems are equipped with security caps and locks for optimum anti-theft protection.

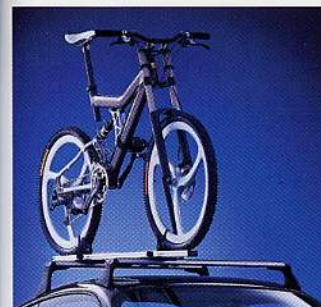

Coupé: part no. 996 801 105 00
Cabriolet: part no. 996 801 055 00
Targa: part no. 996 801 065 00

▲ Racing bike carrier

Specially designed for safe transportation of racing bikes. Not suitable for bikes with front fork suspension.

Part no. 000 044 000 52

▲ Bike carrier

Ideal for all standard bicycles with a frame diameter of up to 65 mm.

Bike carrier: part no. 000 044 000 48
Twin lock set: part no. 000 044 000 49

▲ Roof box

Lockable box with capacity of 300 litres.

Part no. 000 044 000 35

▲ Ski/snowboard carrier

Ski carrier with rubber retainers for up to three pairs of skis. Snowboard carrier for maximum of two boards.

Ski carrier: part no. 996 801 091 00
Snowboard carrier: part no. 000 044 000 32

PORSCHE

Wind and weather

Protecting your passengers.

Protecting your Porsche.

On the 911 Cabriolet, the hood is lowered using a single cockpit control. Thanks to the elegant hood mechanism, the entire lowering process takes just 20 seconds to complete.

As well as being quick and easy to operate, the outer surface of the hood is always stowed uppermost, which means there's always maximum protection for the interior rooflining.

To ensure the same standard of protection for the rest of your Porsche, choose from our exclusive range of tailored covers for hardtop and car. Each is made of breathable anti-static fabric to ensure optimum storage conditions.

◀ Wind deflector (Cabriolet)

Reduces turbulence for driver and passenger while protecting luggage in the rear seat area. Easily detachable when not required, it stores neatly away in the luggage compartment in a special protective sleeve.

Carrera 2: part no. 000 044 801 45
Carrera 4: part no. 000 044 801 64

◀ Hardtop storage system

This practical solution consists of a trolley base and detachable holder. The trolley is made of anodised alloy sections and can accommodate a full set of wheels and tyres. Storage bins at either end are ideal for smaller accessories. The hardtop holder can either be attached to the trolley or mounted directly on a wall. It can also be combined with a special storage holder for the Porsche roof transport system.

Hardtop holder:
Part no. 000 044 000 39
Hardtop trolley (requires hardtop holder):
Part no. 000 044 000 38
Holder for roof transport system:
Part no. 000 044 000 40

▲ Car cover

Breathable cover made of antistatic fabric. Light grey with Porsche Crest and logo.

911 Coupé/Cabriolet, Targa, Carrera 4S:
Part no. 000 044 000 33
911 Coupé with Aerokit Cup, 911 GT3:
Part no. 000 044 000 34
911 Turbo, 911 Coupé/Cabriolet with Aerokit Carrera:
Part no. 000 044 000 50
911 GT2, 911 Turbo with Aerokit Turbo,
911 Carrera with Aerokit Cup II:
Part no. 000 044 000 57

▲ Hardtop cover

Functional, tailored storage cover made of breathable, antistatic material.

Part no. 000 044 000 45

◀ Hardtop carrier

Robust and compact storage system with four castor wheels for easy manoeuvrability. Can also be easily

disassembled and transported in the 911 Cabriolet.

Part no. 000 044 000 59

▲ Wheel cleaning kit

Care products and brush set for Porsche alloy wheels. Wheel cleaning fluid also available separately.

Part no. 000 043 202 24

▲ Car care case (Coupé/Cabriolet)

Aluminium case containing a quality selection of car care products specially approved for your Porsche. Includes shampoo, wax, interior and exterior glass cleaner, paintwork polish, insect remover and plastic dressing. All products are also available separately.

911 Coupé: part no. 000 044 000 56
911 Cabriolet: part no. 000 044 000 00

▲ Ice scraper

Practical winter accessory with aluminium telescopic handle for easy removal of ice and snow. Also features integrated rubber lip for removing rainwater, etc.

Part no. 955 044 000 02

Car care

Extending the life of your Porsche.

▲ Winter car care kit

Car care products for winter use. Includes winter shampoo, de-icer and screen wash.

Part no. 000 044 000 55

▲ Porsche Charge-o-mat

Recharge your battery quickly and safely via the standard cigarette lighter. Recommended after longer periods of storage.

Part no. 000 043 202 43
Part no. 000 044 900 25 (GB)

Service.

Porsche dealers

Your Porsche dealer can offer expert advice on every aspect of your Porsche, including genuine Porsche parts, accessories, lifestyle products, leasing, finance and insurance.

Porsche Used Car Programme

The Porsche Approved Used Car Programme is designed to help you find the very finest examples of pre-owned Porsche vehicles. Each car is rigorously tested to the highest Porsche standards and comes with comprehensive warranty cover.
